Gyanendra Kumar Knojiya

Dynamic and results-driven **Full Stack Developer with 5+ years** of experience specialising in **MERN stack** (Mongodb, Express.js, React.js, Node.js) development. Proven expertise in designing, developing, and deploying scalable **web and mobile applications**.

EXPERIENCE

[P360](), Mumbai, IN (Remote)

Senior Software Engineer L3   April 2025 - Present

- Oversaw end-to-end production deployments, ensuring system stability and achieving **100% on-time release delivery.**

Senior Software Engineer   April 2023 - March 2025

- Developed and maintained **calendar**, **chat**, **contact**, **media**, **video,** admin notification and **SSO** (Ping and Azure) modules for a web and mobile app that **10,000+ pharma** sales reps used.
- Integrated third-party APIs, including **Veeva**, **Twilio**, and **Infobip**.
- Built **Zip code-based** pharmacy suggestions and automated **PDF generation**.
- **Led a team of 20+ developers,** driving code quality, performance, and application architecture improvements.

[Acuments Studio](), Chennai, IN (Remote)

Software Engineer   July 2021 – April 2023

- Led **hotel API integration**, custom **email services**, and **payment gateway** integration. Contributed to **multitenant architecture** and **language translation** features for [Xeniapp]().
- Refactored and optimised the codebase, achieving a **62% reduction** in total page size.
- Delivered a high-impact **custom domain** feature, boosting user engagement for **JollyHQ**. Migrated **40% of the codebase to TypeScript**, enhancing maintainability and type safety.

[Igesia](), Gurugram, IN (Remote)

Software Engineer   July 2020 – July 2021

- **Igesia Connect (LMS):** Built key features like [real-time whiteboard]() and video conferencing for educators and students.
- **Igesia Health:** Developed appointment booking, **video calls,** and the patient management dashboard with **scheduling for doctors**.
- **Igesia Connect Desktop App:** Built from scratch using **Electron.js** to solve critical video conferencing issues, implemented **auto-updates via GitHub on the fly**.
